

The Ultimate Value is Performance

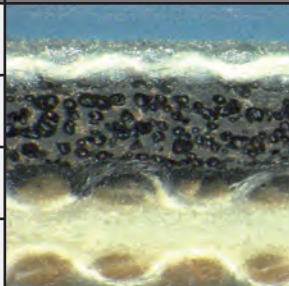

Supaprint FS-50

High Performance Sheetfed Blanket

The FS-50 is a new generation, premium quality sheetfed blanket designed for all print applications from fine art reproduction to packaging.

■ Outstanding Durability and Long Life

Using specially formulated **anti-swell** surface compounds and a unique new **low-sink** carcass, the FS-50S provides a very high level of durability to ensure trouble free, high quality printing and long life.

Specification		Cross Section
Type	Compressible	
Thickness	1.68 / 1.95(mm) .067 / .077(inch)	
Color	Blue	
Hardness	82 (Shore A)	

■ Features

- Out-performs and out-lasts other blankets
- Superior dot reproduction and solid density
- High resistance to ink staining and paper-edge marking
- Excellent ink transfer and sheet release
- **Impact-resistance** compressible layer for rapid smash recovery
- Reduced adhesion of paper dust
- Fast wash-up
