DuraZone Technology for the quality conscious sheetfed printer

Day Printing Blankets

Now DuraZone Technology is available to sheetfed printers in a state-of-the-art offset blanket, the dayGraphica 5200. The 5200 is designed to deliver the ultimate in print quality yet provide unmatched durability. Key to this is the DuraZone compressible layer which resists smashes and gauge loss to maximize on-press life. The specially formulated face compound and smooth buff produce top dot fidelity and print contrast. Run the best - run the dayGraphica 5200!

The DuraZone Advantage

5000 Series blankets feature exclusive DuraZone Technology, a revolutionary, next generation compressible layer that dramatically increases durability of offset printing blankets. DuraZone Technology is the result of more than 12 months of extensive laboratory analysis and field testing, producing an ideal compressible layer that gives printers a productivity edge that will increase their profitability. The technology enables printers to cut costs, reduce downtime, and keep presses running profitably.
